

Complementary & Natural
Healthcare Council

Thinking of visiting a complementary therapist?

CNHC is the UK regulator for complementary healthcare practitioners.

Search the CNHC register to ensure that individuals are appropriately qualified - it will save you time and effort. Look on www.cnhc.org.uk

**Complementary & Natural
Healthcare Council**

CNHC's key function is to enhance public protection by setting standards for registration. This means that those who commission the services of complementary healthcare practitioners, and the general public, will be able to choose a practitioner with confidence.

The Department of Health recommend that the public always consult with someone who is CNHC registered, where CNHC registers the professional discipline in question.

Telephone CNHC on **0203 178 2199** or email info@cnhc.org.uk for more information.
